

Trade Name	DROMOS^R 500mg
Product Name	Propionyl-L-carnitine film-coated Tablets
Manufacturer	Sigma-Tau Industrie Farmaceutiche Riunite S.p.A. – Italy
Indication	Peripheral arterial disease
Description	Propionyl-L-carnitine (PLC) is a derivative of L-carnitine, which has been shown to improve muscle metabolism and function during conditions of ischemia. Experimental data demonstrate that PLC has a pharmacological effect in peripheral arterial disease, heart failure, and in cardiac ischemia.
