**FOR IMMEDIATE RELEASE**

**Submitted New Drug Application to China FDA and Hong Kong DHon  
Zingo® for Needle-free Local Analgesia**

**[14 November 2016, Hong Kong] Lee's Pharmaceutical Holdings Limited** ("Lee's Pharm" or the "Group", Stock Code: 950) an integrated research-driven and market-oriented pharmaceutical group in China is pleased to announce that Powder Pharmaceuticals, Incorporated ("PPI"), an associated company of the Group, has successfully submitted the Zingo® registration application to China Food and Drug Administration (CFDA) and Hong Kong Department of Health (DH).

"We are pleased that CFDA and Hong Kong DH have accepted Zingo® registration application," said Dr. Benjamin Li, Chief Executive Officer of the Group. "Zingo® is currently only marketing in the U.S. We hope Zingo® can be granted the market authorization in both China and Hong Kong so that more needle phobic children and adults in China can be benefited from this novel needle-free local analgesia."

**About Zingo®**

Zingo® (lidocaine hydrochloride monohydrate) is an amide local anesthetic indicated for use on intact skin to provide local analgesia prior to venipuncture or peripheral intravenous cannulation in children 3–18 years of age and to provide topical local analgesia prior to venipuncture in adults. The rapid onset of analgesia in 1-3 minutes provides care givers and patients the opportunity for a pain-free and needle-free access procedure. Clinical trials have shown a statistical difference in pain scores during needle access procedures when using Zingo® versus a placebo system. Zingo® is contraindicated in patients with a known history of sensitivity to local anesthetics of the amide type. It is not to be used around the eyes or on body orifices, mucous membranes, or on areas with a compromised skin barrier. Zingo® should only be used on skin locations where an adequate seal can be maintained.

**About Powder Pharmaceuticals, Incorporated ("Powder")**

Powder is an associated company of Lee's Pharmaceutical Holdings Limited based in Hong Kong and is developing products that utilize a proprietary needleless, painless, powder delivery technology and other medical devices. Powder intends to supply Zingo® globally through international business partners. Powder has successfully obtained approval from U.S. FDA in July 2013 for the manufacturing facilities in Hong Kong to produce Zingo® and market the product to U.S.

## **About Lee's Pharmaceutical Holdings Limited ("Lee's Pharm")**

Lee's Pharm is a research-based Hong Kong biopharmaceutical company listed in Hong Kong with more than 20 years of operation in China's pharmaceutical industry. It is fully integrated with strong infrastructures in drug development, manufacturing, sales and marketing. It has established extensive partnership with more than 20 international companies and currently has 15 products in the market place. Lee's Pharm focuses on several key disease areas such as cardiovascular, oncology, gynecology, dermatology and ophthalmology. The company's development program is lauded with over 40 products stemming from both internal R&D efforts and collaborations with US, European and Japanese companies, including promising compounds to treat diseases such as liver cancer and pulmonary hypertension. The mission of Lee's Pharm is to become a successful biopharmaceutical group in Asia providing innovative products to fight diseases and improve health and quality of life.
