

## HKBIO and Lee's Pharm Mask Donation Campaign

In view of the COVID-19 widespread, Hong Kong Biotechnology Organization (HKBIO) and Lee's Pharmaceutical Holdings Ltd. ("Lee's Pharm" or "the Group") held a charitable mask donation campaign at Yuen Long Catholic Secondary School on March 10th, 2020. 6,000 masks were distributed to residents of Tuen Mun, Yuen Long and Tin Shui Wai. A total of 600 walk-in quotas were given on a first-come-first-served basis and each resident received 10 masks.

To support DSE candidates, the Group and HKBIO has also donated 3,000 masks to Yuen Long Catholic Secondary School, Pui Shing Catholic Secondary School and Ju Ching Chu Secondary School (Tuen Mun) on the same day. Through the campaign, the Group wishes to unite different parties in society to overcome this hard time.

To relieve the shortage of masks, Powder Pharmaceuticals Incorporated ("PPI"), an associated company of the Group, planned to utilise its cleanroom for mask production. Details to be found on the Group's website.
