Hemocoagulase, an enzyme for treatment of bleeding, is the active ingredient of the Group’s registered product Slounase®. It is developed from Viperidae, a venomous snake. Slounase® is used to shorten the bleeding time and reduce the loss of blood without causing blood clots or initiating intravascular coagulation. Slounase® has demonstrated excellent safety profile during the studies and won the awards of “National Key New Product”, “Anhui Province Well-known Brand” and “Anhui Province Famous Trademark” respectively.
